

FHT Accredited Diploma in the Art of Crystal Healing Online Prospectus

The syllabus is delivered in 2 modules and you will be required to pass both modules. Each module is divided into 2 sections of 6 units each, giving a total of 24 units. Assessment is by way of weekly written reflections and knowledge assessment, the identification of the 44 course crystals and the completion of case studies. The classes are designed to make the assessment process as easy as possible and you will be supported throughout by course leader Jackie Winters.

The live, interactive weekly sessions are delivered on Zoom and consist of a mix of theory and practical work; students love the meditations and healings that are part of the syllabus. You will be informed in advance of the class each week which crystals are required.

A minimum of 4 students are required on each intake and we do reserve the right to change the content of sessions if necessary.

The course syllabus is as follows:

Part 1: Communication By Sensation

Units 1-6 are designed to give you a good understanding of crystals so that you can communicate with the crystal kingdom. You will learn how to work with your crystals and become attuned to sensing energy. We will cover vibrational medicine, energy flows through the body, choosing crystals, attitude and well-being, cleansing techniques, attunement, chakra layouts and the natural healing process.

Part 2: Shamanic Principles

Units 7-12 will help you develop your inner shaman so that you can learn how to hold space and maintain the higher energetic vibrations that are required to be a successful therapist. Topics include the auric field, becoming a shaman, absent healing, crystal massage, earth healing, connecting to the crystalline matrix, dowsing with a pendulum, using crystals for dreamwork, gem elixirs and living with crystals.

Part 3: Finding Your Purpose

Units 13-18 incorporate an in depth look at finding your passion and purpose in life and embodying crystals into your world. We cover how to create the perfect healing session,

advanced chakras, basic geology, spiritual laws, advanced crystal layouts, mandalas, subtle anatomy, the blueprint, crystal grids and sacred geometry.

Part 4: Being In Service

Units 19-24 empower you to go out into the world and BE. You will feel confident in your 'being' and how to offer a service in your chosen field. We will cover working with symbols, shamanic principles, subtle anatomy, working with wands, regression, how to be an ethical healer, a scientific perspective and much more!

Upon successful completion of the weekly reflections and case studies you will be able entitled to register with The Federation of Holistic Therapists and use Dip BACH after your name.

Accreditation

All units must be completed and assessed as a "pass" grade. An external verifier will be appointed to assess the level of work presented in each module and ensure that it meets the required specification.

Learning Support

Students will be invited to a What's App group to encourage interaction and offer peer support. Tutor support is available via email and 1:1 sessions are available at an extra cost. We do encourage students to do their own research and trust in their inner intuition so that they can be confident in their ability and develop their knowledge and skills. Many students buddy up and practice in between sessions.

Continued Support

At BACH we appreciate that on first becoming a practitioner you may need support and guidance. Therefore, we encourage you to become a member of the FHT. They will ensure that your knowledge is kept up to date with regard to ethics, legality, regulations on holistic therapies and offer a library of CPD courses you may be interested in to further develop as a successful healer.

Continued Learning

Post Graduate and Teacher Training courses are available for those who wish to continue with their education in the field of Crystal Therapy. We also hold regular

Retreats in sacred Mountains to replenish energy and restore harmony. Details can be found on our website.

Your Tutor

Jackie Winters founded the British Academy of Crystal Healing in 2004 and is one of the leading authorities in the field of vibrational medicine. Her crystal journey started over 40 years ago and she is in demand worldwide as an expert speaker and teacher. Jackie also hosts a podcast: Crystals for Spirituality and Wellbeing where she shares her knowledge of the crystal kingdom.

Course Fees

Fees include all registration, insurance, examination, assessment and verification costs.

Application

To apply for a place on the course a completed enrolment form is required. A deposit to secure your place is also needed if not paying in full.
